

FGCU INTERNATIONAL CLUB

Mission: The International Club assists International students to integrate into FGCU and the local community, to share international experiences, and bring to FGCU an awareness and understanding of international perspectives and cultures through programs, events, social activities and services.

The International Club is for anyone interested in travel, language, and people from diverse traditions. The club isn't just for International students, but it welcomes American-born students too! The club brings each individual a chance to meet someone from a different world perspective and also helps to broaden their own international experience.
