Purpose and Function

The Campus Recreation Advisory Council is a recommending body, which serves in an advisory capacity to the Director and staff of the Department of Campus Recreation. It represents a means of communication between the departmental staff and program participants, and provides a means for input from the students, faculty, and staff at Florida Gulf Coast University. The primary functions of the Council are to recommend policies/procedures pertaining to facility utilization and eligibility, program content, operation, and direction, and to advise the Campus Recreation staff of participant/customer concerns. Members of the Advisory Council are volunteers. The Advisory Council is a tremendous opportunity to have an important voice.

Responsibilities of Council Member

Individuals who are appointed to the Advisory Council are expected to assume the following functions and responsibilities:

1. Attend scheduled Advisory Council meetings. There will generally be 3-4 meetings per semester and each meeting generally lasts approximately 60-75 minutes.
2. Actively represent program participants within their respective areas with regard to issues relating to recreational programs and services provided through the Department of Campus Recreation.
3. Meet regularly with representatives from designated areas and be prepared to report developments at Council meetings.
4. Commitment of 1 academic year.
