

Section 7. Environmental Sustainability Committee.

The Council Chair, in consultation with the Vice Chair, shall appoint an Environmental Sustainability Committee. **The Committee shall be responsible for ensuring that the university has a goal (with associated action plans) for promoting environmental sustainability that is included in the university strategic plan. The action plans will have clear objectives and identified resources and offices responsible for their attainment. The committee will monitor the implementation of approved action plans on an ongoing basis and it will make its recommendations to and receive directions from the PBC. The committee will also ensure coordination of the activities of all campus units engaged in activities designed to achieve environmental sustainability.** The Environmental Sustainability Committee shall have two co-chairs: the Director of Environmental Health and Safety and the Director of the University Quality Enhancement Plan. Other members of the Committee shall include the Director of physical Plant, the Whitaker School of Engineering Director of the Environmental Engineering program, the College of Arts and Sciences Chairperson of the Department of Marine and Ecological Sciences, either the director or the associate director of the Center on Environmental and Sustainability Education, a Student Government representative, a Deans' Council representative, two Faculty Senate representatives, and a Staff Advisory Council representative.
