What actions have you taken to achieve this goal?

MULTICULTURAL STUDENT DEVELOPMENT

1. Partnering with various academic portions of campus, sponsorship and co-sponsorship of lectures and programs on and off campus.
2. MSDS has created a resource center and database that contains popular titles along with educational and professional journals and resources. We maintain database of ready made workshops, that can be conducted by the students, or by staff at any given time.

What measures have you taken towards assessment of this goal?

1. Data tracking and program evaluations. N-L Student Satisfaction Survey.
2. Tracking, check out system of materials, request cards.

Describe the progress you have made toward attaining this goal including the anticipated completion date.

1. This is an ongoing and continuous project. Evaluations are relevant to format and style, while news trends and data are the source for implementation.
2. In the past year we have made significant progress in expanding our titles of magazines, journals, novels, and workshops. If participation rates are equal to or exceed enrollment growth program success will be supported. Effectiveness will be evaluated through program evaluations and satisfaction ratings.

Describe how the results of assessments have been used to improve student learning or your department's activities.

1. Tracking participation and program evaluations will determine resource requests.
2. Students have requested materials and we have been able thus far to achieve that. Usage has grown and check out system is working for non current materials.

Program or Service Specific Assessments

What program or service specific assessment occurred in the current academic year?

Data Tracking of Students that came to MSDS office for service. Information retained was purpose of office visit, length of stay, recurrent visitation. Information was then delineated to resource/information/enrichment and academic/personal advisement.

Incoming students were tracked for the 2nd year as to needs and services they expect or desire. Students were placed on an incoming class email list, information sent to those students only.

How were the results of the assessment used to improve programs or services?

Goal for 2007-2008

What action(s) will you undertake to achieve the goal?

Continuously advocate for the smaller sections of student population while helping students advocate for themselves and educate their peers for access and opportunity. Growth in Programs that are University supported. Continuation of some traditional Student Endorsed programming, growth in attendance of programs by the majority student base dependant on the topic. (i.e. seeing more heterosexual students interested in learning and understanding a presentation focused on differing sexual orientation, or more majority religious students attending Jewish/Muslim based program) issues.

How will you know if you have successfully attained each goal?

Data tracking, head count, observation, short and long range studies of attendance.

How will the results of the above assessments be used to improve student learning or services?

They will be used to further programming services and request as students begin to converse on issues that we can then begin more dialogue and offer more programs.
