

Assessment Plans 2005-2006

Unit: Graduate Studies and Continual Learning

What assessments are you planning to conduct during 2005-2006?

In the John Scott Dailey Florida Institute of Government, regular assessments include program evaluation after each workshop, regular follow-up phone calls to most community clients, benchmarking similar Institute programs in Florida.

Will continue with existing assessment activities for the Renaissance Academy. Will conduct new assessments for successful expansion of credit courses at the Naples Center and the Cape Coral Center.
