The Main Menu summarizes your progress completing a course. The graphic is a representation of the Main Menu for the CITI Health Information Privacy and Security (HIPS) for Clinical Investigators course.

Every time you begin/re-enter a course, you must click Complete The Integrity Assurance Statement before beginning the course. You will return to the Main Menu after completing the Statement.

Completing a Course Module

- Required modules need to be completed first, in the order listed. The optional and elective modules, if offered, can be selected at your preference.

- You are able to enter the program numerous times to complete a course.

- At the end of a module you have two choices:
  - Take the quiz (not every module has a quiz)
  - Return to the module list for this course (Main Menu)

Module Quizzes

The module quizzes contain between 2 and 10 multiple choice and/or true/false questions. A score of 80% is needed to pass the course. Scores are calculated by combining your quiz scores. You can re-take the quiz to attain a passing score of 80%. However, you cannot retake a module quiz to increase you score above 80%.

After completing the quiz, a screen explaining all of the answers appears.
