

## Bioengineering

- 5 3-Dimensional Routine Cell Passaging of NIH/3T3 Cells
- 6 The Effect of Substrate Stiffness On Cell Health After Electroporation
- 7 FBP1 Expression in Dynamically Stiffened Hydrogel
- 9 Effects of Various Squat Depths on Vertical Jump Height and Ground Reaction Force

## Biological Sciences

- 4 Analysis of Expression of Flowering Genes from *Melaleuca quinquenervia*
- 10 Can Different Breeds Of Honeybees Better Survive Against Varroa Mites?
- 11 Comparison Of Five Commonly Used Databases For Research On Anal Fin Ratio In *Gambusia Affinis* And *Holbrooki*
- 13 Simulated Microgravity Effects In The Zebrafish Visual System
- 15 Movement patterns of *Gopherus Polyphemus* in a fragmented habitat in southwest Florida
- 16 Regulation of FePer1, Gene Encoding 1-Cys Peroxiredoxin in Buckwheat (*Fagopyrum esculentum* Moench): A Transgenic Study
- 17 A Seasonal Examination of the Morphological Anal Fin Elongation in Mosquitofish (*Gambusia holbrooki*) in south west Florida Surface Water
- 19 Testing the Effectiveness of Yeast Fermentation in Three Different Sugar Water Solutions for Trapping Mosquitoes
- 20 How Often Do Boas and Pythons Eat?
- 21 Literature Analysis on Five Select Endocrine Disrupting Chemical Compounds Found in the Water of Southwest Florida
- 22 PCR Investigation to Isolate APETALA 1 Gene in *Melaleuca quinquenervia*
- 24 Antibacterial Properties of Various Cytokine Mimetic Peptides
- 25 Evaluating the Role of Fyn Kinase Lipidation in Cell Attachment, Growth, and Migration
- 27 A Literature Review Of 4 Chemicals For Evidence Of Endocrine Disruption In Aquatic Organisms
- 28 A Literature Review on Which Academic Database Describes the Best and Most Recent Information on Gene Expression in *Gambusia*
- 29 Assessing Inter-measurer Variability of Geometric Morphometric Morphology in *Gambusia holbrooki* (mosquitofish) Anal Fins as an Indicator of Endocrine Disrupting Compounds in Southwest Florida

- 31 Detecting Live Salmonella Cells in Lettuce Samples Using Silver Nanoparticle Antibody-Conjugated Optical Probes
- 33 Microgravitational Impacts On THE Retina of mus musculus
- 34 Imaging of Ag Nanoparticles and Concentrations of Penetration Within Breast Cancer Tumor Spheres
- 36 Assessing species boundaries in Florida plant lineages: examples from the Bluehearts (Buchnera) and needle-leaved St. John's-worts (Hypericum)
- 37 Microgravity Effects on TRPV1 Pain Receptors in Mouse Mandible Specimens
- 38 Analyzing 4:6 ratios of female mosquito fish (Gambusia holbrooki) during dry season sampling among septic tank and reuse water locations
- 39 Regeneration of *Melaleuca quinquenervia* from Leaf Tissue Explants
- 40 Nutrient Analysis of Surface Groundwater in San Carlos Park Florida, Community Using Septic Drainage Systems
- 41 Feeding Frequency in Snakes as it Relates to Their Diet and Taxonomic Classification
- 42 Effects of Microgravity on Mouse Mandible Bone Cells
- 43 Differential expression of the CCE1 transposable element in Varieties of Brassica oleracea is Caused by Differences in Methylation
- 44 A Novel Synthesis Method Provides Higher Stability of Silver-Anti-HER2 Conjugated Nanoparticles
- 46 Effectiveness of Various Electric Toothbrushes in Mechanical Removal of Plaque
- 47 L-Serine effects on Amyloid Plaques and Neurofibrillary Tangles in zebrafish
- 48 Functional Analysis of *Melaleuca quinquenervia* FRUITFUL-LIKE and LEAFY-LIKE genes
- 49 Oil Efficacy of Essential Oils Thyme and Coriander Against The Opportunistic Fungal Pathogen *Aspergillus fumigatus*
- 50 Ectopic Expression of Buckwheat Fagopyritol Synthase Enhances the Stress-Tolerance in transgenic *Arabidopsis* plants
- 53 Monitoring Rainfall Nutrients and Dissolved Iron with Potential Impacts on Inland Algal Blooms
- 57 Old vs. New Pond Soil Permeability for Flood Control
- 58 Spatial Ecology and Multiscale Habitat Selection of the Black Spiny Tailed Iguana (*Ctenosaura similis*)

## Chemistry & Physics

- 2 Heterogeneous Palladium-NHC Catalysts for Greener C - C Coupling Syntheses Featuring Structurally Secured Metal Coordination Site
- 3 Differential Detection and Analysis of DNA from Various Substrates Commonly Found at Crime Scenes
- 12 Computational Screening of Green-Solvents in Suzuki Coupling
- 14 Computational Chemistry for the Prediction of Green Solvents in Medicinal Drug Synthesis
- 18 Computational Investigation of Substrate Dependence of the Suzuki Coupling Reaction in Medicinal Chemistry
- 26 Girls in Engineering, Math, and Science: Is it making a difference?
- 30 N-heterocyclic carbene-metal complexes as bio-organometallic antimicrobial and anticancer drugs (2015-2020)
- 32 Computational Investigation of Substrate Dependence of the Suzuki Coupling Reaction in Medicinal Chemistry
- 35 Synthesis, molecular docking studies, and in vitro evaluation of 1,3,5-triazine derivatives as promising antimicrobial agents
- 51 Chemicals of Emerging Concern (CECs): A quantitative study of dangerous chemicals in our waterways
- 45 Quantification of Endocrine Disrupting Chemicals in Southwest Florida Waters
- 67 Internship with the Broward County Sheriff's Office Crime Lab DNA Unit: Evaluation of Recovery Differences of Various Collection Methods

## Environmental and Civil Engineering

- 52 Phytoremediation of Landfill Leachate
- 54 Economic Analysis of Constructed Wetland Treatment Technologies
- 55 Chemical UV filter usage and estimated loading rates in Southwest Florida

## Marine & Ecological Sciences

- 23 Trichechus manatus latirostris, the Florida Manatee: Studying Their Environmental Dangers And Conservation Efforts
- 56 Temporal and Spatial Variability of Fecal Indicator Bacteria in Southwest Florida Tidal Streams
- 62 Analysis of Copper Concentration in Naples Bay Oysters and its Effect on Spat Recruitment
- 63 Transport and Settlement of Oyster Larvae in the San Carlos Bay, Southwest Florida
- 59 Importance of Wetlands vs Wet Detention Ponds in Southwest Florida Flood Mitigation
- 60 Microcystis Colony Disintegration Techniques
- 61 Farmers' perceptions on farming conditions & the vertical hydroponic system: A Southwest Florida pilot study
