SECTION 4: TEACHING METHODS, PHILOSOPHY, & MESSAGE TO STUDENTS

A. TEACHING METHODS
Teaching method comprises lectures/discussions, in-class exercises, applied problems/projects, and oral presentations. My teaching methods are assessment oriented and designed to provide a better understanding of what students are learning and engages students more in the process of learning content and applying critical thinking skill.

B. TEACHING PHILOSOPHY
Writing a statement of my teaching philosophy reflects my personal values and consideration for the needs of my students and the university goals. At the core of my teaching philosophy is my belief that students should be educated and mentored simultaneously. Therefore, I also act as a facilitator in the learning process, rather than the mere deliverer of information. I recognized that students learn in a variety of ways, so I take great effort to accommodate their differences. I am committed to making students active participants in their education through interactive classroom lectures and collaborative learning experience. Interactive lectures, critical thinking exercise, and learning outcome analysis are employed to let students engage in creative and interactive learning activities. These activities are designed to satisfy the Students Learning Outcomes as stipulated by the FGCU, the Lutgert College of Business, and the School of Resort and Hospitality Management program. I observed that students learning are significantly enhance when they incorporate their interactive learning exercises, and learning outcome analysis. Students therefore, become more active participants in this collaborative learning process and are more responsible, dependable, and team-oriented.

C. MESSAGE TO STUDENTS
It is a privilege to be your professor this semester. I trust that this semester I can both teach you and learn from you. Together we will explore a discipline and a profession that I have been a part of for over 20 years (financial analysis/hospitality management consulting). I hope to be able to share with you my knowledge and experience, as well as my passion for the field of Resort and Hospitality Management. I have been teaching for over 15 years and it gives me measures of stupendous joy and exhilaration to be your teacher and facilitator in the classroom this semester. I hope some of my passion for RHM accounting will pass to you and that you will see this course as both a field of study and an important contribution to your professional career development.

*I encourage you to come by the office during regularly scheduled office hours.

Why should you take accounting? Perhaps the most compelling reason for taking an accounting course, especially if you do not plan on becoming an accountant, is that accounting teaches "the language of business." No matter what your intended area of study, if you want to be successful in business, you need to know how to speak the language of business. Whether your responsibilities include rooms (where you will need information about revenues and expenses), food and beverage (where you will need information regarding the costs of food sold, expenses, revenues, labor, and overhead), events management (where you will need information relating to sales, and expenses), or human resources (where you will need information relating to the costs of the department operation), you will use accounting information.

The more you know about where accounting information comes from, how it is accumulated, and how it is best used, the better you will be able to perform your job.
D. How to determining if you will successfully complete this course?
1. **Do you have the time?** You **MUST** prepare before you come to class – read the assigned reading material and complete the assigned problem(s) each week. The general rule is that for every one (1) credit hour of class you need a minimum of three (3) hours of preparation outside of class each week. Therefore, for a three credit hour class you will need to set aside a minimum of nine (9) hour each week for reading, making notes and doing assignments.

2. **Can you keep up with the weekly reading and assignments?** Each assignment in accounting builds on previous assignments. If you do not understand Chapter 1, you will have difficulty in Chapter 2 and may be lost in Chapter 3.

3. **Do you have good reading and comprehension skills?** That is can you read each chapter and understand it in three (3) times or less and do 75 percent of the assigned problems on your own weekly.

4. **Can you focus on understanding “Why”?** This is a technical subject with its own set of rules; however, once you learn the basic rules, accounting is internally logical.

5. **Can you work problems to understand “How”?** You may be able to understand "why", but you must also be able to work problems to demonstrate your understanding.

6. **Can you write formal business reports?** Formal business reports include memos, letters, and short reports using APA style of writing.

7. **Can you do the assignments listed on Canvas?** If you read the assignments three times and do NOT understand what is required you should see an advisor at the Center for Academic Achievement.

If you answer NO to three (3) or more of the above question it means that you are going to have a very difficult time understand the course material and end result is failure. My recommendation to you would be to set up an appointment with your advisor in the College of Business regarding the ways in which you can overcome your deficiencies and take the course when you no longer have these deficiencies.
D. How to determining if you will successfully complete this course? Cont.

If you answer **YES** to three (3) or more of the above questions then you MUST do the following to successfully completed this course.

1. **Be a Procedure/Winner and NOT a Procrastinator/Looser.**

   **Producers → Winners:**
   - Always have an idea
   - Always say, "I'll do it!"
   - See an answer for every problem
   - Always say, "I can"
   - Look for a way to do it
   - Always offer solutions

   **Procrastinator → Losers:**
   - Always shows ignorance
   - Always say, "It's not my job!"
   - See a problem for every answer
   - Always say, "I can't"
   - Look for a way to get out of it
   - Always offer excuses

2. **Act Responsible through Preparation, Attendance, and Participation.**

   **Preparation**
   1. Read, study, and make notes, on the assigned chapters in textbook and supplemental books on reserve in the library each week before attending class.
   2. Read, analyze and do ALL assignments listed in the tentative schedule.
   3. Research and develop your own ideas and personal experience examples that relate to each topic listed in the tentative schedule.
   4. Preparation will assists you with both learning and long-term retention of concepts.

   **Attendance**

   4. Attending **ALL** classes and NOT displaying **DISRUPTIVE BEHAVIOR** will enhance your learning through listening and doing the interactive classroom exercises with your classmates. It will also improve your long-term retention and better performance on assignments and exams.

   **ZERO TOLERANCE FOR CLASSROOM DISRUPTIVE BEHAVIOR** (SEE **PAGE 11**)

   **Participation**
   What is good participation?
   1. Quality, not quantity.
   2. Analyzing and discussing course material.
   3. Questioning the analysis of others.
   4. Seeking clarification.
   5. Contrasting issues within other settings, courses, and / or other countries.
   6. Adherence to guidelines for professional conduct.
   7. Participate actively in class discussions and interactive exercises.
D. How to determining if you will successfully complete this course? Cont.

3. Classroom Student Responsibilities for Exams, Quizzes, and Assignments
The conduct in the classroom will be in accordance with the FGCU Student Code of Conduct revised September 2015. In addition, there will be NO allowance for cheating.
The first incident of cheating will result in an immediate \textbf{ZERO “0”}, for the assignment, quiz or exam. The second will result in a \textbf{ZERO (0)} for the course and information will be submitted to the Student Code of Conduct Office.
\textquote{This is a learning environment, the best learning occurs through mistakes, and therefore at all times the work during the course should be from the student.”}

4. Cooperative Learning Behavior in Class at ALL Times
To respect our right to the best possible learning environment, classroom disruptions will not be \textbf{tolerated.} please:
  - Turn Off cell phones, pagers, etc. before class (or as a minimum have on silent, vibrate mode. No text messaging is allowed during class. Text messaging will result in dismissal from class session, and recorded as an absence/non-participation.
  - If you arrive late or leave early, sit near the door. Please do NOT walk through the front of the class.
  - Do NOT carry on side conversations when I, or others are speaking
  - Eat before or after—not during class (only water is allowed in the classroom)

5. Learning and Course Expectations
\textbf{Learning is your personal responsibility.} The instructor is a mentor, facilitator, and coach in your active and unique learning process.

Class sessions will be formal and class participation is strongly encouraged. Questions pertaining to the course or relating to the accounting/finance/business field are also welcome throughout the semester. Class lectures will be focused on helping students understand the “WHY’s” (the concept behind the mechanics) rather than the mere mechanics of the subject matter. \textbf{Please do not use memorization as a substitute for understanding.}

After observing students for many years and drawing from my own experiences as a student, I believe that students learn best by actively questioning and explaining. In this course, I encourage you to join in class discussions and bring questions to class. This means that in order to receive the maximum benefits during class time, you will need to read the assigned topics and attempt the homework before coming to class.

It is obvious that you will both need and be expected to attend all class meetings. You also must be prepared to take part in class discussions. This does not mean that you should have all topics mastered and learned; otherwise there would be no reason for class. It does mean that you should not be hearing about the topic for the first time in class.

You will become successful by helping others become successful. One of most effective ways of learning any subject matter is to teach it to someone else. By actively engaging in-group learning, you will be practicing the attributes of questioning, organizing, and connecting knowledge. Also, you will be learning to learn and to teach others, and you will be developing interpersonal skills you will need for successful careers in accounting or any other business field.
D. How to determine if you will successfully complete this course? Cont.

5. Learning and Course Expectations

The five learning conceptions are:
1) Learning will increase your knowledge.
2) Learning to understand and do not use memorization as a substitute for understanding.
3) Learning as the acquisition of facts which can be retained and/or utilized in practice.
4) Learning as the abstraction of meaning.
5) Learning as an interpretative process aimed at the understanding of reality.

For this course learning is a collaborative process between all the members of the class. I hope we can help each other to create a supportive learning environment throughout the term using Confucius axiomatic statement below.

**Tell me, I’ll forget**
**Show me, I may remember**
**Involve me, I’ll understand**

-Confucius

**SECTION 7: UNIVERSITY & COLLEGE STANDARDS & POLICIES**

**Academic Behavior Standards and Academic Dishonesty** - All students are expected to demonstrate honesty in their academic pursuits. The university policies regarding issues of honesty can be found in the **FGCU Student Guidebook** under the “Student Code of Conduct” and “Policies and Procedures” sections. All students are expected to study this document which outlines their responsibilities and consequences for violations of the policy. The FGCU Student Guidebook is available online at [http://studentservices.fgcu.edu/judicialaffairs/new.html](http://studentservices.fgcu.edu/judicialaffairs/new.html)

Students are expected to maintain the highest standards of academic honesty and integrity while in this course and as a student at Florida Gulf Coast University. In addition to standard definitions of honesty, integrity, and plagiarism, this policy also prohibits you from possessing, using, viewing, accessing, or otherwise benefiting from previous and/or concurrent work products created for this course by other students or any other person, allowing persons outside your team to contribute to the creation of your team's work product, putting your name on a team project in which you did not contribute, and submitting a paper written by you for another course or occasion without the explicit knowledge and consent of the instructor. Failure to maintain these standards will result in severe academic penalties, including receiving an automatic F in this course.

A student's name on any written exercise shall be regarded as assurance that the work is the result of student's own thought and study, stated in student's own words and produced without assistance, except as quotation marks, references and footnotes acknowledging the use of other sources. Students may be authorized to work jointly, but such effort must be indicated as joint on the work submitted.

**Plagiarism** occurs whenever you copy someone's writing, even partially, and fail to reference it in your paper. If you copy a substantial amount of the sentence from a source, it should be referenced in quotes. If you paraphrase it, you must reference it but you do not need quotes. If any member of a team is found plagiarizing, they and their entire team will be given an automatic ZERO (0) for their assignment and turned over to Judicial Affairs. If anyone in your team is caught plagiarizing, then the whole team will be given a 0 for the assignment. **IF YOU HAVE ANY QUESTIONS AS TO WHETHER SOMETHING WILL BE CONSIDERED PLAGERIZED, BE SAFE AND REFERENCE THE SOURCE.**

**Please remember that plagiarism is a serious offense and will not be tolerated.** Plagiarism in projects will result in a failing grade of ZERO (0) POINTS and may lead to more serious consequences (FGCU Student Guidebook under the “Student Code of Conduct”). Therefore, your projects must be original material. **Also copying your classmate assignment(s) and turn them in will result in a failing grade of ZERO (0) POINTS for ALL parties involved.**

**Writing Policy**
All students are expected to communicate effectively in written English. Proper attention to grammar, spelling, punctuation, on and proofreading is required. Assignments with several errors will lead to a reduction in grade.

**Copyright** – The university requires all members of the university community to familiarize themselves and to follow copyright and fair use requirements. You are individually and solely responsible for violations of copyright and fair use laws. The university will neither protect nor defend you nor assume any responsibility for employee or student violations of fair use laws. Violations of copyright laws could subject you to federal and state civil penalties and criminal liability, as well as disciplinary action under university policies.

A student who is to be excused from class for a religious observance is not required to provide a second party certification of the reason for the absence.

Grading Policies and Grading Systems - The grading system at FGCU is described in the FGCU Catalog and is overseen by the Office of Planning and Institutional Performance.

Retention of Papers, Tests, Student and Class Records - University policy dictates that any materials, hardcopy or electronic, that contribute to the determination of a course grade be maintained by individual faculty for one full academic year after the end of the semester.
