Management: A Practical Introduction, 7th Edition
(includes an e-book and an option to purchase a hard copy at a reduced price)

The FGCU bookstore has for purchase the course code for Connect software/e-book as well as the hard copy text. Please note that if you opt to buy a used book, or rent or purchase the required textbook from another source, you will need to ensure that you buy both the textbook and a separate online access code to Connect. Be aware that the Connect code is not transferable from one user to another. You may also may choose to purchase the Connect directly from McGraw-Hill.

During the first two weeks of the semester you can sign on for a free 2-week trial of the McGraw-Hill Connect (with the eBook). This will allow everyone to complete assignments and access course materials even if they cannot purchase the course package by the first day of class. You will need to purchase full access to your course before your trial expires and use the same email that you used to sign up for courtesy access to avoid losing your work.

McGraw-Hill’s Connect is the online workbook/activity guidebook that you will use to learn and remember key concepts and theories, assess your comprehension, and apply course concepts to real world scenarios. You will access your Connect homework from our course Canvas page. Please review the following information from McGraw-Hill Higher Education before you begin any assignments in Connect.

- Using MH Campus and creating an account: Watch this Getting Started with Connect video or review the Connect Quick Tips for instructions on how to access your Connect assignments and create a Connect account.
- Run a system check: In order to complete many of the activities in Connect (both homework and for tests), you will need to install and allow plug-ins like Adobe Flash, Java, and Quicktime. It is strongly recommended that you troubleshoot your computer at least once a week, and before every quiz, to be sure that you will be able to complete the required exercises. Click on the following link to learn how to troubleshoot Connect and what the computer requirements are: http://www.connectstudentsuccess.com/
- Learn how to navigate Connect: Use this link to find out how to navigate the Connect platform.

Get support: Connect has a Customer Experience Group (CXG) Support Center where you can connect with a tech specialist via chat, phone, or email.

NOTE: In addition to learning Connect, it will be important to have mastered Canvas by the end of the first week of classes due to a syllabus quiz deadline on Friday, January 12th.

F. ATTENDANCE POLICY:

I do not want this course to be just another dull introductory business course. An understanding of how organizations, and more specifically managers, manage can greatly facilitate your own work careers, regardless of your career track or job title. Therefore, each of you should have an active interest in the information covered in this course. To help enhance this interest and the learning experience, class lectures and textbook readings will be supplemented with current event discussions, videos, assigned cases, and skill building exercises that illustrate and reinforce specific management theories and concepts. However, in order for you to get the full benefit of these applied activities, it will be necessary to come to class prepared to actively participate. This means that assigned readings and management applications will have to be read and thought about prior to coming to class. By being prepared for each class session this course will be both more enjoyable and fruitful to your business careers.
Regular attendance and enthusiastic participation in class discussions and activities is expected. I do not intend to review all of the assigned textbook readings for the corresponding class session. Also, some of what I discuss in class will not be covered in your text. To do well in this course you will have to know both the text material and class lectures, including the class discussions and exercises.

Students are expected to conduct themselves in accordance with the student code of conduct. Attendance related actions such as arriving to class late, temporarily leaving and returning to the classroom, and/or leaving class early have a significant negative impact on the learning experience of other students in the class. Please respect the learning experience of your classmates by addressing your personal issues before arriving to class. Should students choose to leave the classroom for any reason, they may not be able to return for the rest of the class period.

G: INFO ON YOUR PROFESSOR

Background: My name is Diana Fandel. I am a member of the full-time faculty here at Florida Gulf Coast University, and I will be your instructor for this course. I have been teaching at the Lutgert College of Business here at FGCU since 2013. Before teaching at FGCU, I spent twenty five years working in industry in a variety of roles including positions such as Global Operations Manager, Director of Customer Experience, Marketing Functional Manager, Manufacturing Functional Manager, Human Resources Manager, and more. I am excited about teaching this class because I have the opportunity to introduce management concepts to you which, I believe, will serve as foundational knowledge for a successful business career. I have a BS in Human Nutrition from the University of Massachusetts Amherst, an MS in Business and Management Research from Henley Business School and an MBA from Harvard Business School. Like you, I am a student as I am in my final year of my doctoral program and plan to graduate from Henley Business School in October 2018. On a personal note, I enjoy the company of friends and family while engaging in a variety of activities such as dining out, golfing, travelling and riding my motorcycle.

Teaching Philosophy: At the university level, the student and instructor build knowledge together through a variety of learning methodologies. In order to appeal to the many different student learning preferences, I have structured this course to be taught using a combination of classroom lecture and discussion, in-class exercises, textbook readings, homework assignments, videos, case studies and team presentations. That is my part of building knowledge together. Your part of building knowledge together is to give your full attention to this learning experience by completing the assignments at a high quality level, fully engaging in all of the learning activities, comprehensively studying for exams, and, if needed, proactively seeking my help on course learning/challenges.

Use of Technology in the Classroom Policy
Technology is an essential part of today’s learning environment. With the increasing use of technology, the need for the responsible use of such technology has likewise increased. Most FGCU students have, at some point, sat next to students who used their laptops or PDAs in class to check e-mail, talk to friends, text message, search the internet or play on-line games. Unfortunately, every person sitting around such students is distracted by this behavior and classroom learning decreases. As a result of these distractions, we will implement the following policy: Using laptops or PDAs in class to legitimately take notes or work on class projects is allowed, but all other use of laptops or PDAs in class is prohibited. Please respect your fellow students and professors and abide by this technology policy. Thank you.

Cell Phone Policy
Students are not allowed to use cell phones in class. Please turn them off as you enter the classroom and keep them stored out of sight in your backpack or pocket.
