To: Chuck Lindsey, FGCU Faculty Senate President  
From: Terry Wimberley, Chair of Institutional Affairs Team  
RE: Faculty Referendum Regarding Making FGCU Campus Smoke-Free

On behalf of the Institutional Affairs Team of the Faculty Senate, I am writing to express the team's consensual opinion that the Faculty Senate should bring the matter of whether the campus should be smoke-free to the faculty in a referendum prior to the end of the Spring 2011 term and should thereafter vote on the matter themselves in the interest of moving (or declining to move) a recommendation to the President and Provost on this issue.

Since the students and the FGCU staff will also be holding a referendum on this matter, we further suggest that the Senate refrain from taking final action on this issue until it has reviewed the results from all three referendums (students, staff and faculty).

On behalf of the team I thank you and our senate colleagues for considering our recommendations on this issue.
