<i>Initial</i>	<i>I understand and agree that:</i>
	I shall abide by the codes of ethics as set forth by the American Counseling Association and American School Counselor Association at all times. Failure to do so may result in remediation or dismissal from the program.
	I will follow this planned program. Any changes to this program must be authorized by your advisor. Also, I understand that, although unlikely, this program may be adjusted to meet new state and other requirements for certification and/or licensure.
	I am responsible for checking any and all communications (e.g., emails and CANVAS announcements) in a timely manner.
	To graduate, I must pass both the comprehensive counseling exit examination (CPCE) and all sections of the FTCE including the school counseling specialty exam.
	My progress in the program including knowledge, skills and dispositions will be formally reviewed once per semester. As a result, I may be required to adjust my program of study (e.g., enrollment limits or delay of field experiences).

NOTE: Course prefix numbers are subject to change without notice. You must have **50** credits to graduate (or **56** credits for noncertified educators).
