We collected monthly and annual membership prices for full access to campus recreational facilities for Faculty and Staff in the SUS, and have averaged the total for our Faculty/Staff/Non-Benefit Earning Staff to \$300 annually for full access memberships.

- We propose to charge an amount of \$250 membership to all FGCU faculty and staff, part time and full time, and patron’s over 18 years old which will give them access to all of Campus Recreation’s facilities/programs including the aquatic center, personal training, group fitness, and intramural sports. Faculty/Staff membership rates and access policy will be established to protect the interests of fee-paying students.

Additionally, information was collected regarding price structures for programs including personal training, group fitness, and intramural sports. Comparable Florida schools (FIU, UF, USF, FAU, FSU) include group fitness access in the membership price. It is proposed that FGCU Faculty and Staff who purchase a Campus Recreation Membership will have access to group fitness classes and intramural sports, and the option to purchase personal training packages. Faculty/Staff without a membership will be expected to pay a guest fee when participating in intramural sports housed in the University Recreation & Wellness Center.
